

Whole Roasted Almonds (1073)

Product Data Sheet

Whole Roasted Almonds (Lightly Roasted)

Product Code: 1073

1. Product Identification

Trade Name: Whole Roasted Almonds (Lightly Roasted)

Product Code: 1073

Classification: Natural Food Ingredient / Tree Nut

CAS Number: Not applicable (natural agricultural product)

Description: Whole almonds that have been lightly roasted to enhance flavor and aroma while maintaining structural integrity and nutritional properties.

2. Product Description

Whole Roasted Almonds (Lightly Roasted) are premium-grade almonds subjected to a controlled light roasting process. This preserves their natural sweetness, crunchy texture, and characteristic nutty profile.

3. Applications

- Snacks and nut mixes
- Confectionery, chocolates, and pralines
- Granolas and cereal bars
- Bakery fillings and toppings
- Dairy and plant-based yogurt inclusions

4. Physico-Chemical Specifications

Appearance: Whole light-brown almonds

Moisture: $\leq 5.0\%$

Broken Kernels: $\leq 5\%$

Foreign Matter: Absent

Peroxide Value: ≤ 5 meq O₂/kg fat

Aflatoxins: ≤ 10 ppb total

pH: 6.8 – 7.2

5. Microbiological Information

Total Plate Count: $\leq 10,000$ CFU/g

Yeasts & Molds: $\leq 1,000$ CFU/g

Salmonella: Absent in 25g

E. coli: Absent

6. Nutritional Information (per 100g)

Energy: ~575 kcal

Protein: 21g

Carbohydrates: 22g

Fat: 49g

Fiber: 12g

7. Packaging

10–25 kg food-grade bags or cartons.

8. Storage and Stability

Store in a cool, dry place. Shelf life: 12 months.

9. Regulatory Compliance

Complies with FDA, EU, and Codex standards.

10. Additional Information

Contains tree nuts. Intended for food industry use.
