

Product Data Sheet

Sea Salt Flakes

Product Code: 1057

1. Product Identification

Trade Name: Sea Salt Flakes

Product Code: 1057

Classification: Natural Food Ingredient / Salt

CAS Number: 7647-14-5 (Sodium Chloride)

EINECS Number: 231-598-3

Description: Natural flaky sea salt crystals obtained by solar evaporation and traditional harvesting methods.

2. Product Description

Sea Salt Flakes are delicate, pyramid-shaped salt crystals produced through natural solar evaporation of seawater. They are valued for their unique texture, clean flavor, and premium culinary appeal. Ideal for gourmet seasoning and finishing applications.

3. Applications

- Culinary finishing salt for meat, fish, salads, and vegetables
- Toppings for baked goods and desserts
- Premium snack seasoning
- Ingredient in gourmet spice blends and rubs

4. Physico-Chemical Specifications

Parameter	Specification	Test Method
Appearance	White flaky crystals	Visual inspection
NaCl Content (dry basis)	>= 97%	Gravimetric
Moisture	<= 5.0%	Oven Drying
Calcium (Ca)	<= 0.4%	ICP-OES
Magnesium (Mg)	<= 0.2%	ICP-OES
Sulfate (SO4)	<= 1.5%	Ion Chromatography
Insoluble Matter	<= 0.1%	Filtration
pH (10% solution)	5.5 - 8.5	USP <791>

Lead (Pb)	<= 2 ppm	ICP-MS
Arsenic (As)	<= 1 ppm	ICP-MS

5. Microbiological Information

Due to its low moisture content and high mineral concentration, sea salt flakes are not prone to microbial growth.

Product is compliant with food-grade microbiological standards.

6. Nutritional Information

Typical values per 100g:

- Energy: 0 kcal
- Protein: 0g
- Carbohydrates: 0g
- Fat: 0g
- Sodium: ~38g

Non-GMO, allergen-free, and gluten-free.

7. Packaging

Packaging: 1 kg or 5 kg food-grade polyethylene bags or pouches inside cartons.

Label: Product name, code, lot number, manufacturing and expiration dates, net weight.

8. Storage and Stability

Store in a cool, dry environment away from moisture, odors, and direct sunlight.

Shelf life: 36 months in original sealed packaging.

9. Regulatory Compliance

Complies with:

- Codex Alimentarius standards for food-grade salt
- FDA and EU regulations for edible salt
- ANVISA standards for food additives and ingredients

10. Additional Information

Product intended for culinary use.

Avoid prolonged exposure to humidity to preserve texture and flow.
